

Achievements and Future Ambitions

You have achieved a lot on your journey. Think about your key achievements (and write them in the stars) and think about your goals for the future (write these in the clouds).

The worksheet contains five yellow stars arranged in a horizontal line across the top. Below them are five teal clouds arranged in a similar horizontal line, with the second cloud from the left positioned slightly lower than the others. These shapes are intended for users to write their achievements and future goals.
